Investment and trading involve risks, including possible loss of principal and other losses. These products and services are designed to provide training tools for the understanding of system trading and development. RINA Systems Inc. is not engaged in rendering any investment or other professional advice. If investment or other professional advice is required the services of a licensed professional should be sought. RINA Systems Inc. will not be responsible for any losses or lost profits resulting from investment decisions based on any RINA Systems product or service information obtained through use of any RINA Systems product or service or otherwise, hypothetical or simulated performance results have certain limitations. Unlike an actual performance record simulations do not represent actual trading. Also since the trades have not actually been executed the results may have under - or over - compensated for the impact if any, of certain market factors such as liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. There is a risk of loss in futures and securities trading.
